

Weathermaster RCU7

Single rotating cantilever umbrella

Weathermaster®

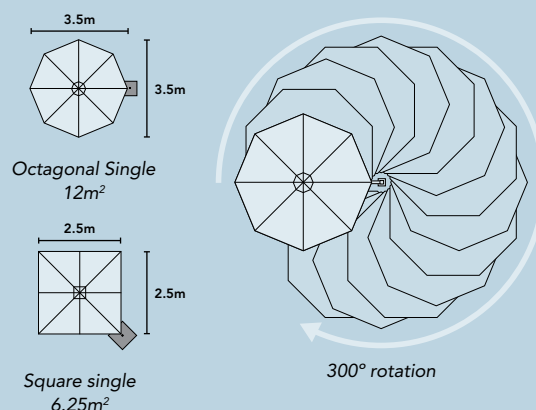

Outdoor magic by Weathermaster

Now you can position shade exactly where you want it to be, because the innovative Weathermaster RCU7 cantilever umbrella rotates on its anchor. Superior design and materials will ensure top performance for many summers to come.

What's great about this umbrella?

- Choice of canopy shape – square or octagonal
- Rotates up to 300° for shade optimisation
- No centre pole, so furniture arrangement is easier
- Heavy-duty extruded aluminium mast
- Up and down with one easy movement
- Premium fade-resistant fabric in a range of contemporary colours
- Two fixing options – in ground or surface plate
- Easy-fit cover for protection when not in use
- Three-year guarantee

Choose the right shade solution for you

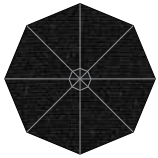

Approximate square metre coverage of RCU7 canopies.

Weathermaster RCU7

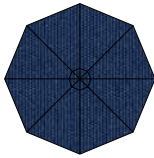

Features and options

Colour range

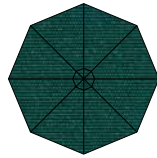

Premium 100% solution-dyed 290g/m² waterproof acrylic with high colour-fastness. Fabric is washable and replaceable. For commercial use, screen-printed branding is available on request.

**Golden Bay
Yellow**

The above colour representations have been printed as accurately as possible. Actual fabric colours may vary slightly.

1 Protective cover

All-weather cover protects mast and canopy.

2 In-ground anchor

Stainless steel and aluminium anchor secured into concrete.

3 Surface anchor

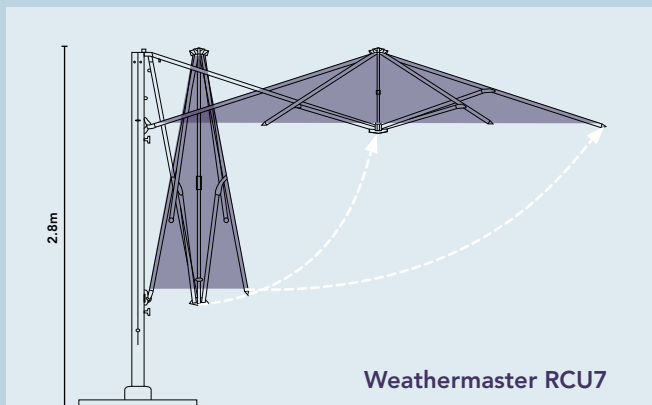

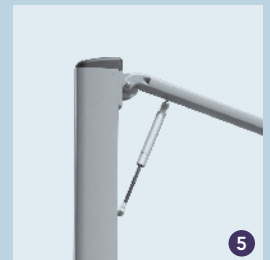

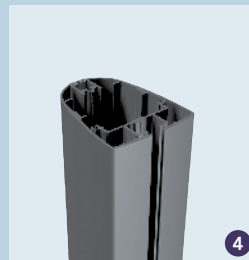

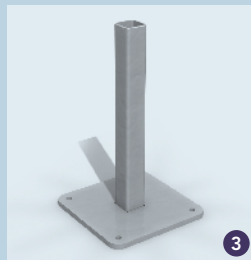

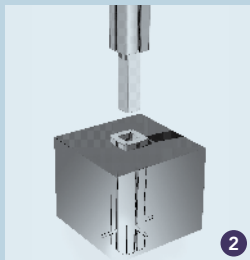

Hot-dipped galvanised steel plate secured onto existing wooden deck or concrete.

4 Robust aluminium mast

Heavy-duty extruded aluminium mast finished in matt grey powder-coat.

5 Gas-assisted single-movement sliding system

Effortless opening and closing. If your umbrella will be located in a coastal environment, you can upgrade to a stainless steel strut for improved performance.

Guarantee

New Zealand Window Shades limited guarantees the Weathermaster RCU7 for a period of three years from the date of purchase.
